Professional Experience

Swiss Aviation Software, Basel, Switzerland   02.2025 – 08.2025
Software Engineer / Data Analyst - Intern
- Identified key behavioural analyses to support data-driven decisions by POs and PMs.
- Designed and built custom Flutter trackers to capture real-time user behavior.
- Structured tracking data for seamless integration with internal monitoring tools.
- Aligned tracking strategy with stakeholder needs via regular syncs and tailored visualizations.

Ziyara Project, Paris, France   07.2025 – Present
Volunteer Software Engineer
- Developing and maintaining two Flutter apps: a user-facing app and an internal admin app.
- Managing database operations with Supabase (PostgreSQL).
- Delivered new features, bug fixes, and improved code structure for maintainability.

EPITA, Paris, France   02.2024 – 06.2024
Dragon Head
- Spearheaded a project team on collaborative projects with external companies.
- Coordinated meetings with partners to define project scope and requirements.
- Allocated responsibilities based on individual strengths to maximize efficiency.

MBT Consulting, Muhlouse, France   09.2023 – 01.2024
Virtualisation & PAM Engineer - Intern
- Rebuilt the company website using custom HTML modules for greater flexibility.
- Deployed and configured Systancia Gate, Cleanroom, Workplace, and Identity.
- Set up and documented FSLogix and ODFC containers to streamline Office 365 integration.

Education

- **EPITA**, *Paris, France* - Master's Degree in Computer Science   09.2020 – 09.2025
- **Bahçeşehir University**, *Istanbul, Türkiye* - Exchange Semester (ML, AI, Mathematical Modeling) 07.2024 – 01.2025
- **Bahçeşehir University**, *Istanbul, Türkiye* - Exchange Semester (Java, C, C++, Python) 02.2022 – 07.2022

Projects

- **Collaborative ToDo App:** Full-stack app (TypeScript, React, Supabase) with Google/email auth, RLS-secured CRUD, and Tailwind UI.
- **AI Solutions for Consulting & RFP/RFI:** Analyzed France, Switzerland and EU consulting markets, assessed AI-driven RFP automation, evaluated custom LLMs, and delivered optimization strategies.
- **42sh:** Implemented a POSIX standards-compliant shell in C with basic features.
- **Java IDE:** Developed a full-featured Java IDE with code editor, compilation console, project management, context-aware autocomplete, Git/Maven integration, and multiple selectable themes.

Technical Skills

- **Programming :** Python, C, C++, Go, Java, JavaScript, TypeScript, Dart, Bash
- **Frameworks & Libraries :** Pandas, TensorFlow, Flutter, React, Scikit-Learn
- **Cloud & DevOps :** AWS, Docker, Terraform, Ansible, Kubernetes, GitHub Actions
- **Databases :** PostgreSQL, MongoDB, Neo4j, Supabase
- **Methods :** Project Management, Team Management, Consulting, AGILE/SCRUM
- **Languages :** English (Fluent, TOEIC - C1) | German (Intermediate, DSD I - B1) | French & Turkish (Native)

Certifications

- **AWS Solutions Architect Associate** - *Udemy*   In Progress, 2025
- **Python TensorFlow** - *GreatLearning*   2024
- **Brevet d'Initiation Aéronautique** - *Académie de Strasbourg*   2017
